Projects

Light Fixture, Personal Project

Feb 2025 – Mar 2025

- Constructed a light source by disassembling a broken television display and having LED strips set up along the inside boundary to disperse light evenly across a dark room.
- Implemented a DC power converter to use wall outlet current as a power source for light.

Arduino Spy Museum, Northeastern University, General Engineering (1111)

Fall 2024

- Constructed a cardboard box with different components to simulate a museum.
- Utilized C++ Arduino code to activate various Sparkfun kit components including LEDs, push buttons, photoresistors, a flex sensor, thermal sensor, LCD screen, and speaker.
- Presented final product to class and facilitated student engagement.

Work/Volunteer Experience

Kendall Apartments, McAllen TX

May 2025 – July 2025

Assistant Apartment Maintenance Technician

- Aided full-time mechanics with fixing condenser units, rewiring switchboards, changing plumbing
- Picked up required and requested tools from various hardware stores and delivered them to site.
- Provided essential upkeep such as: Groundskeeping, painting interiors, managing waste disposal

Nipmuc Regional High School, Upton MA

Sep 2022 – May 2023

Student Government, Event Organizer

- Raised approximately \$15,000.00 through fundraisers with local business promotions, donation nights and bake sales in order to fund Senior Prom.
- Organized and arranged school pep rallies, prom and senior activities.
- Publicized bake sale and food drive events through social media and fliers.
- Promoted activities for a class of 140 including: Mr. Nipmuc pageant, Senior Assassin, Senior prank.

Evolution, Martial Arts, Westborough MA

Jun 2019 – Oct 2021

Assistant Taekwondo Instructor

- Instructed groups of students from ages 8-14 in various Taegeuk Poomsae forms and movements.
- Assisted with teaching classes and encouraging discipline and concentration in students.
